Languages: French (native) | Spanish (native) | English (fluent)

Education

ELLIS: Helmholtz AI/LMU & Google DeepMind

Munich & London

PhD in Machine learning

2022–2026

Supervisors: Dr Eric Schulz (Helmholtz AI/LMU) & Dr Jane X. Wang (Google DeepMind).

Title: "Cognitive Models of Deep Meta-Reinforcement Learning"

University College London (UCL)

London, UK

MS.c in Data Science & Machine Learning, Distinction (82.6%) with Dean's List

2020–2021

Supervisors: Prof Neil Burgess (UCL) & Dr Zafeirios Fountas (Huawei).

Title: "Leveraging episodic memory in model-based RL"

University of Manchester

Manchester, UK

BEng Aerospace Engineering, First class Honours

2015–2019

Experience

Huawei

London, UK

Visiting Research intern (10 months)

2021–2022

Collaborated with Huawei Neuromorphic Computing Group for my UCL Master's research thesis and pursued the research further. Investigated how the neuroscience concept of episodic memory could be used in model-based reinforcement learning for more sample efficiency in complex tasks and environments.

Accepted paper at MemARI (2022 NeurIPS workshop).

Rolls-Royce Plc

Birmingham, UK

Software Engineering Intern (12 months)

2018–2019

Supervision

Natalia Scharfenberg: Osnabrück University, Master Thesis: "LLM's representations for RL" 2023

Awards

Dean's List: top 5% of student achievement within the faculty of Engineering

2021

Distinctions of the jury: 14th French Olympiads of mathematics - Nice Academy

2014

Summer schools

MIT Brains, Minds & Machines Summer Course: Woods Hole, USA

2023

Research papers
